TO THE
Soldier Boys
OF THE FORTS
My Greetings:
I will be with you as per schedule below. I am known as "The Wizard of the North"—sometimes as "The King of Mystifiers," or "The Mystifier of Kings." They can call me what they like, it matters not to me.

I KNOW I'M CLEVER
Meet me in your theatre at 5 p. m. on the day of my appearance and I will succeed in amusing you for 5 or 10 minutes. It will be a free showing. Why??

Because if you see me for 5 minutes you will want to see me for 50 minutes. This can be done by paying your admission at night. Neganda, boys.

Yours sincerely,
HERBERT BROOKS

ARMY ENGINEER COMPANY IS TO COME HERE SOON

Sixty Men From Philippines Will Arrive in September; Going to Fort Shafter

Cable orders received Wednesday by the Hawaiian Department, and made public today, announce that the company of engineers of the regular army ordered to report for duty on Oahu will leave Manila on the transport sailing from the Philippine port August 15, arriving here about September 1.

This engineer company of 60 men is coming here for service in the Hawaiian Department, as ordered by the National Defense Act of June 3, which has reorganized the assignment and designations of army engineer organizations, and has provided for the organization on Oahu of a new heavy field artillery regiment, the 32d, a new infantry regiment, the 32d, and two companies of engineers, C and D.

Of the two engineer companies for Oahu, the nucleus will be the present company at Fort Shafter, plus the 60 men being sent here from Manila. The companies will be designated as Company C, 1st Battalion, and Company D, 2nd Battalion, both of the 3rd Regiment of Engineers.

Company C will consist of two-thirds of the present engineer company at Fort Shafter, while Company D will be formed from one-third of the company here plus the 60 men coming from the Philippines in September.

Although both companies are to be in service on Oahu, battalion headquarters of Company C will be at Manana, while battalion headquarters of D Company will be at Panama. Under the National Defense Act Companies A and B will be stationed at Manana, C and D at Fort Shafter and E and F at Panama. Regimental headquarters are at Fort Mills, P. I., which is also headquarters for the first battalion of this regiment.

The senate, following its annual custom, voted to strike from the agricultural bill the appropriation for needs to be distributed by members of Congress to their constituents. The item heretofore always has been restored in conference.

NAVAL MILITIA WILL BOARD TUG NAVAJO TONIGHT

Orders issued today by the acting commander of the Naval Militia of Hawaii direct members to board the U. S. navy tug, Navajo at 7 o'clock this evening at the Fort Armstrong wharf. The tug will tow a target tonight for night searchlight drill at Fort De Russy.

This drill will be held from 8 to 9 o'clock tonight and takes place twice a month on the first and third Thursday nights. The fort's big searchlight is used to locate the target, which represents an attacking enemy warship. The big 12 and 14-inch rifles are then aimed at the target and the range obtained, although no firing is done.

Annual target practice, with regulation loads of powder and projectiles, will be held by all the coast defense forts on Oahu this month, starting August 14 and continuing until August 25.

BEST OPERATORS OF MARCONI CO. LOANED TO ARMY

Big Wireless Corporation Has Taken Active Stand on Side of Real Preparedness

The following letter relative to the stand which the Marconi Wireless will take for "preparedness" has been given out by W. P. S. Hawk, manager of the local office:

"The Marconi Wireless Telegraph Company of America considers that, by reason of its nation-wide activities and its peculiar adaptability to the nation's needs—perhaps greater than that of any other civic institution—it should be considered an arm of the government, and in time of national stress or peril, should hold itself in reserve subject to government orders and control.

"Already it has enrolled many of its rank and file as a naval reserve, having several months ago furnished the Navy Department a complete list of its employees, segregated them according to rank and experience, with particular reference to their ability to serve the country in time of war and in the design, manufacture and operation of radio apparatus.

"Having done this for the navy, the Marconi company is desirous of likewise serving the army and to the extent that it can supply capable and expert wireless men without weakening the organization it is holding in reserve for the navy, it will be glad to do so.

"Subject, therefore, to the above conditions the Marconi company will give its consent to any employes who may wish to volunteer for service or who may, by reason of his membership in the National Guard, be required to heed the call to serve the country on the border or in Mexico or wherever the government orders, and in any case, where the applicant meets the usual requirements and can be spared, the Marconi company will keep his position open and allow half pay until January 1, 1917. After January 1, 1917, the matter will receive further attention.

"Employees of over one year's service, temporarily transferred to government service will continue to be protected under the Marconi company's life insurance plan, and such employees from the Marconi company will not interrupt the continuity of the employee's service and seniority benefits."

tion of officers of the Medical Corps are ordered: Maj. Eugene H. Hartnett, Schofield Barracks to Fort Shafter, relieving Maj. Benjamin J. Edgar, Jr., who, upon being thus relieved, will report to the commanding officer, Department Hospital for duty. Capt. Lauren S. Eckels, Department Hospital to Schofield Barracks.
